Lock+ Hydro Friends Fund XIX, LLC; Notice of Preliminary Permit Application

Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

On April 2, 2013, Lock+ Hydro Friends Fund XIX, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Claiborne Lock & Dam on the Alabama River near the town of Monroeville in Monroe County, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a concrete lined intake channel with a trash rack system; (2) a 166.5-foot-long, 165.2-foot-wide powerhouse containing two generating units with a total capacity of 22 megawatts; (3) a 250-foot-

long, 165-foot-wide tailrace; (4) a 13.8/115 kilo-Volt (kV) substation; and (5) a 5.5-mile-long, 69kV transmission line. The proposed project would have an average annual generation of 145,850 megawatt-hours, and operate as directed by the Corps.
